# More Equal Shares

Answer each question below, and show how you figured it out.
> **NOTE** Students use what they have been learning about fractions as equal parts to answer questions about sharing a pizza.
>
> **SMH** 57

1. How can 3 people share this pizza equally? What would each person's share be?

2. How can 6 people share this pizza equally? What would each person's share be?

3. How can 12 people share this pizza equally? What would each person's share be?
